

Vacuum glass lifter

Model VB32CGE

**Kg max
1100**

**Power supply
Batteries**

The VB32CGE model is a vacuum lifter **specific for curved glass, both concave and convex.**

VB32CGE is self-powered by high capacity re-chargeable batteries that, if necessary, can be easily removed and quickly replaced (battery charger included).

This vacuum lifter allows the **continuous 360 degrees electric rotation and the 90 degrees electric tilt** of the curved glass.

It has 32 round suction pads diameter 210 mm, and it has 2 independent vacuum circuits, each vacuum circuit with vacuum reserve and non-return valve.

Radius:

Convex glass max

R 1000	capacity kg 800
R 2500	capacity kg 1000
R 3000	capacity kg 1100

Concave glass max

R 2000	capacity kg 1100
--------	------------------

Electric tilt 0-90°

Continuous 360° electric rotation

Lifting capacity 1100kg

No. 32 suction pads d. 210 mm

Safety devices

Dual vacuum circuit built to EN13155 standard

CE

made in
ITALY

Vacuum glass lifter

Technical drawing

Technical specification

Application	Glass panels – concave or convex		
Lifting capacity	Max 1100 kg		
Suction pads	No. 32 round suction pads diameter 210 mm Specific suction pads for curved materials		
Pad spread	mm 1780 x 1016		
Load movement	Continuous 360 degrees electric rotation 90 degrees electric tilt		
Radius	Convex glass max	R 1000	capacity kg 800
		R 2500	capacity kg 1000
		R 3000	capacity kg 1100
	Concave glass max	R 2000	capacity kg 1100
Operating system	DC vacuum pump powered from on-board batteries High capacity re-chargeable batteries Battery status indicator Economizer for reduction of the energy consumption		
Vacuum system	2 independent vacuum circuits, each vacuum circuit with vacuum reserve and non-return valve		
Control	Wireless radio remote control Release of the load by dual action security command		
Standard features	Audible and visual low vacuum warning devices Vacuum gauge for each vacuum circuit Battery charger 240 Volt Vacuum filter Multi position hook connection		

✓ Dual vacuum circuit built to EN13155 standard
